

R&D Funding

Bionow's Preferred Partner for R&D Funding solutions

Abbey+ offers Bionow members access to R&D tax relief, R&D grants and Patent Box relief. As these 3 distinct government initiatives go hand in hand, Abbey+ have set up one multi-disciplinary team of Chartered Tax Advisers, Accountants, PhD Technologists and Patent Attorneys who work seamlessly together.

R&D Tax Credits

Abbey+ will ensure that you have maximised your R&D tax credits. No charges will be incurred unless a successful claim is made. Bionow members benefit from a 20% discount on the usual fees charged by Abbey+ and their competitors.

R&D Grant Applications

Abbey+ has extensive experience in winning R&D grants and are proud to be leaders in terms of success rates achieved.

If the first application is unsuccessful, Abbey+ will re-write and re-submit the application to the same or a different funding body free of charge. Bionow members receive a 10% discount on both the upfront fees and the win fees.

Patent Box relief

Abbey+ has developed a simplified, fixed fee approach to obtaining UK patents before applying for the patent box relief. The initial consultation is free and Bionow members receive a 20% discount on both the fixed fee patent application fees (if required) and the patent box claim fees.
