

Excellence at every phase +

SRG is an award-winning recruiter for the clinical research sector. Our dedicated resource teams are functionally aligned to ensure SRG manages the best network of contacts, putting us in an optimum position to fulfil your staffing requirements.

We cover all areas of clinical research including:

- + Clinical Operations
- + Biometry
- + Clinical Science
- + Medical Affairs
- + Drug Safety/
Pharmacovigilance
- + Regulatory Affairs

We are proud to work with many of the world's top pharmaceutical, biotechnology and clinical research organisations, supplying both permanent and contract staff across the UK and Europe.

Our expert-to-expert services recruit for high level and specialist roles, many of which are experiencing skills shortages. Our enhanced premium permanent service brings together the very best of contingency and search techniques and methodologies, to identifying the best candidates in the market with niche skills, or for senior management roles.

We also provide complete managed service programmes for clients who want to outsource the management of high volume, multi-discipline recruitment campaigns across multi-locations.

In addition to traditional recruitment services, our CRO division, Synergy, delivers outsourced clinical research contract services.

Excellence at every phase +

A VOTE OF CONFIDENCE +

"I chose SRG as I had used them before at two different companies, and always found that the candidates put forward were well screened and qualified. They understand the requirements of the roles we recruit for and what kind of person we look for, and always put forward suitable, high quality candidates. They don't oversell their candidates, and are realistic about their strengths and weaknesses. It's a pleasure to deal with them."
