

World Courier Ground

Trusted transport throughout Europe.

Customers across Europe count on World Courier for temperature-controlled ground transport, relying on us for tailored solutions that include:

- A specially designed fleet of prequalified vehicles independently tested to transport all temperature ranges
- Highly trained, World Courier-employed drivers and staff
- Full compliance with EU GDP Guidelines 2013/C 343/01
- Custom, temperature-mapped trailers
- A sprinter-based fleet of temperature-controlled cubes
- Continent-wide SOPs
- Real-time tracking and temperature monitoring
- State-of-the-art, environmentally sound vehicles
- Local knowledge and expertise from resources in 55 offices across Europe

Mitigate the risk of temperature excursions and time delays for your most sensitive pharmaceutical and biotech shipments. Partner with World Courier for peace of mind, delivered.

The trusted choice for intra-European ground transport for biopharma and biotech samples and supplies.
