

Liquid Nitrogen, Argon & CO₂
for Bionow Members

Air Products

A one-stop shop for your liquid gas requirements

As a market leader in the life science sector, Air Products prides itself on our customer service and commitment to the market. With our competitive offer, we look forward to engaging with Bionow Members to provide a cost effective solution for your requirements. Air Products enables customers in a myriad of industries to improve their environmental performance, product quality and productivity.

With our strong knowledge of Liquid Nitrogen and our class-leading range of Chart MVE freezers, we are able to provide the optimum turnkey solution to meet your needs, including comprehensive project management solution for the storage of your critical samples.

The consistency and quality of the gases we supply are also vitally important. We strive to not only meet international industry standards, but also satisfy the most demanding requirements for on-spec products and superior technology and services.
