Department for International Trade - Bio-pharmaceutical Trade Mission to India 23 - 28 September 2019

The Department for International Trade (DIT) invites innovative British bio-pharmaceutical companies across:

- Drug discovery and delivery
- Vaccine technology
- Process technology and advanced analytics/AI in bio-pharma

to participate in an innovation focused bio-pharmaceutical trade mission to India.

India's pharmaceutical industry, currently 3rd largest by volume, is expected to grow to \$55 billion by 2020. It supplies over 50 per cent of global demand for vaccines, and is the largest exporter of generics. India's Pharma Vision 2020 aims to develop the country as a major hub for end-to-end drug discovery. The UK is known for world class innovation and expertise in drug discovery, manufacturing process technology, and digital technologies including omics and big data. This makes the UK the perfect partner of choice for the Indian bio-pharma industry as it looks to move up the value chain.

The mission will visit the following cities across India:

- 23-24 September, Mumbai
- 25-26 September, Ahmedabad
- 27-28 September, Hyderabad

Why attend:

- Part of a strong delegation to showcase UK expertise in innovation in Bio-pharma.
- Chance to meet with key stakeholders and influencers from the Indian bio-pharma industry.
- Focused meetings with potential buyers.
- Dedicated support from DIT network.

Register your interest:

We invite expressions of interest from organisations with an innovative offer in biopharma. If you would like further information, please contact dithealthcare@brayleino.co.uk with:

- A brief description of your proposition on offer for the Indian market and why it is particularly innovative
- Your objective for joining the mission

The closing date for expressions of interest is 31st July 2019. Places are strictly limited so please apply early. We will contact you to confirm your place.
